

## Privacy Policy Engineering Tools

Our engineering tools support you in the planning, implementation and operation of your machines with LENZE components.

During installation, the engineering tools request the user's username, company name, and license number. After installation, the user can view and edit this information in the EASY Navigator in the license menu.

During use, the engineering tools transmit data relevant for licensing to LENZE.

### The data includes:

- Username, company name and license number (query of user input)
- License type, validity and installation date (query of application data)
- Installed engineering tool with variant, version and installation date (query of application data)
- Username, user domain, system name and operating system (query of the system environment)
- Time stamp of the data transfer

LENZE stores this data for a period of 12 months. We use this data to ensure that the engineering tools are used in accordance with the license and terms of use. We reserve the right to warn or block licenses that are not used in accordance with the license and terms of use.

## Your rights

You have the right to receive information about your personal data stored by LENZE. You also have the right to have inadmissible data deleted or blocked or to have incorrect data corrected. You have a right to revoke data that we have collected on the basis of consent. The revocation does not affect the legality of the data processing until the revocation. To do so, you can send us an e-mail to [dataprivacy@lenze.com](mailto:dataprivacy@lenze.com).

Further information on your rights and on data protection beyond the use of engineering tools can be found on the LENZE website at <https://www.lenze.com/en-de/privacy-policy>
